

Opdracht werkbladen w05-1a/1b, w05-2a/2b

Van twee enkelvoudige woorden één samengesteld woord/'dubbelwoord' (in kleutertaal) maken.

Hoe kun je deze opdracht aanbieden?

De kinderen zijn in staat om te spelen met woorden en hun betekenis.

Je verzamelt afbeeldingen van samengestelde woorden die te maken hebben met wonen, zoals vogelnest en kippenhok. Je vraagt aan de kinderen of ze twee verschillende woorden horen in deze woorden. In deze voorbeelden zijn dat 'vogel' en 'nest' en 'kippen' en 'hok'. Kunnen de kinderen zelf ook nog dubbelwoorden bedenken?

Vervolgens deel je de werkbladen uit. Wonen w05 kent twee variaties die verschillen in moeilijkheidsgraad. Variatie 1 is makkelijker dan variatie 2. Afhankelijk van het niveau van het kind op taalgebied kun je kiezen voor variatie 1 of 2 (zie verrijking).

Variatie 1:

Gebruik de werkbladen w05-1a en w05-1b. De dubbelwoorden zijn al ingevuld op w05-1a. De kinderen kleuren de plaatjes van w05-1b en knippen deze uit. Dan zoeken de kinderen tussen deze plaatjes steeds twee enkelvoudige woorden die samen de dubbelwoorden vormen. De combinaties worden op de juiste plaats gelegd op werkblad w05-1a.

Met antwoordblad w05-3 controleren de kinderen zelf of zij de plaatjes juist hebben neergelegd en plakken deze vast.

Auditiieve taaldoelstelling

Taalbegrip (zie 'Wat zeg je?', blz. 69).

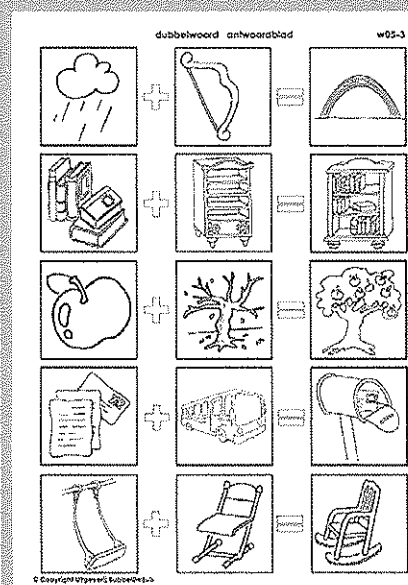

Wat heb je nodig

- kleurpotloden/viltstiften
- schaar
- werkbladen w05-1a/1b, w05-2a/2b
- antwoordblad w05-3

Aantal kinderen per werkblad

1

Antwoordblad w05-3

Verrijking

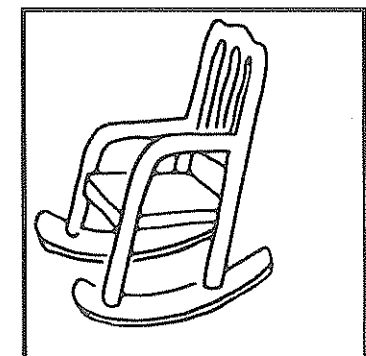

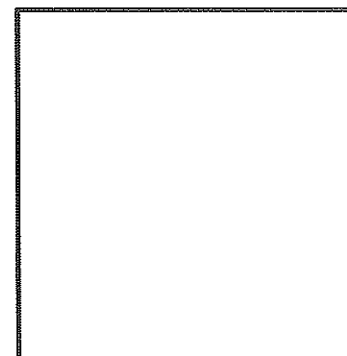

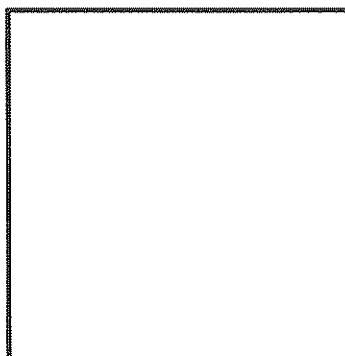

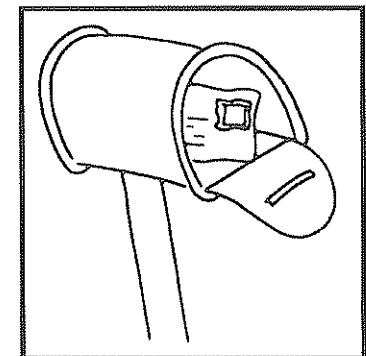

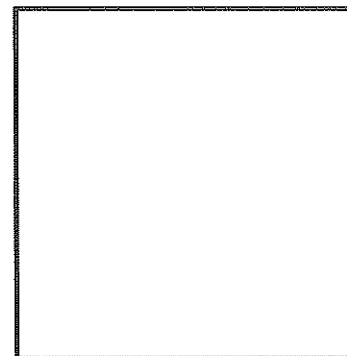

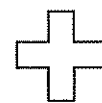

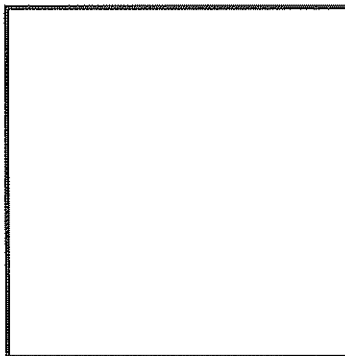

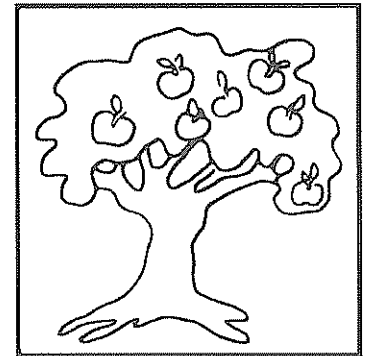

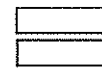

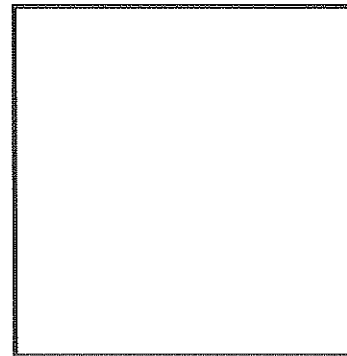

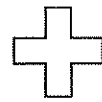

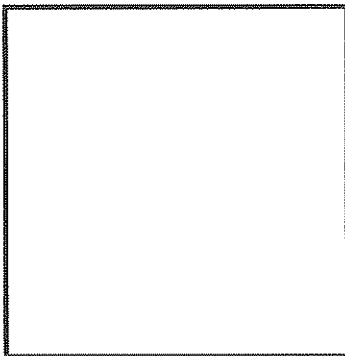

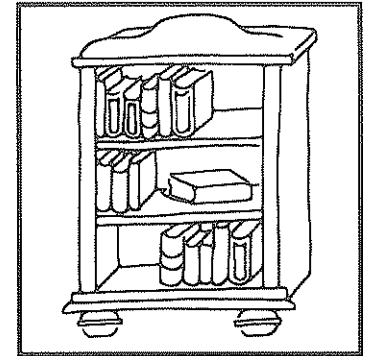

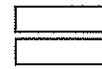

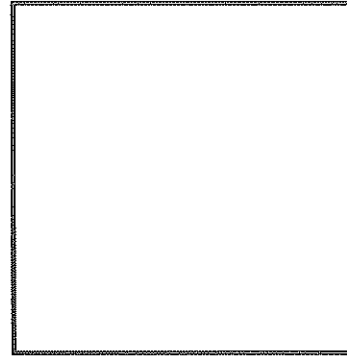

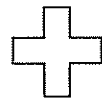

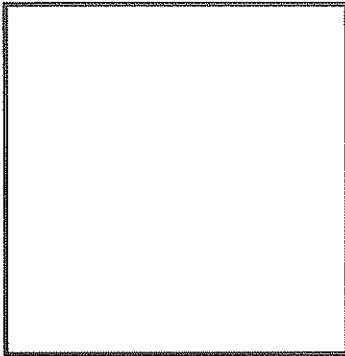

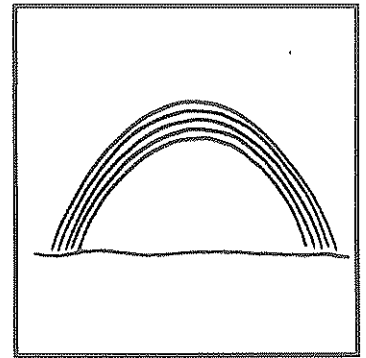

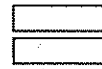

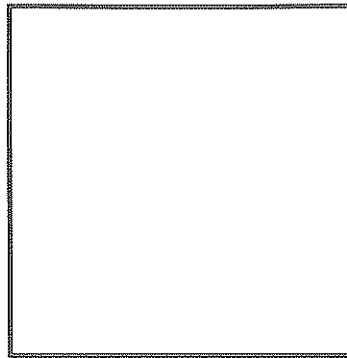

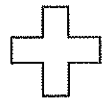

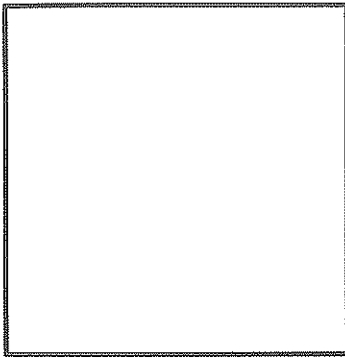

= variatie 2:

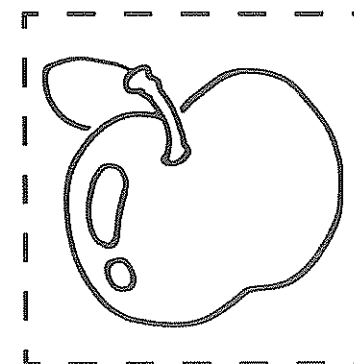

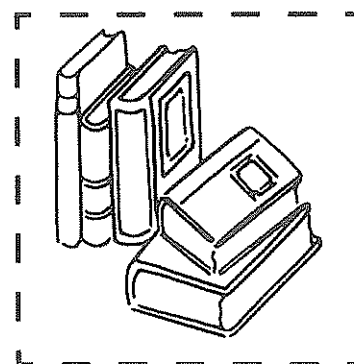

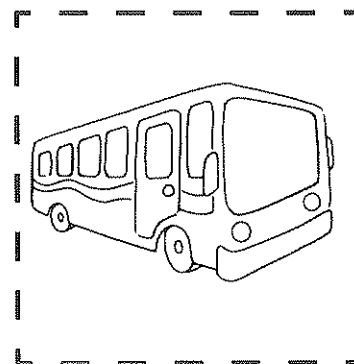

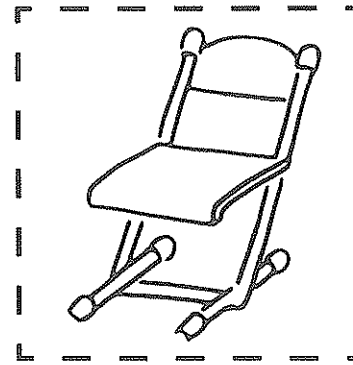

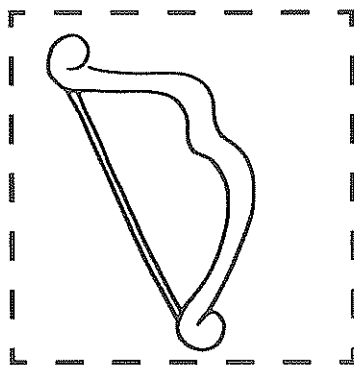

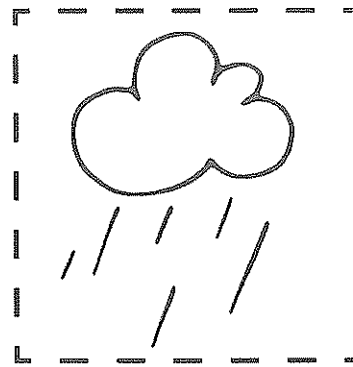

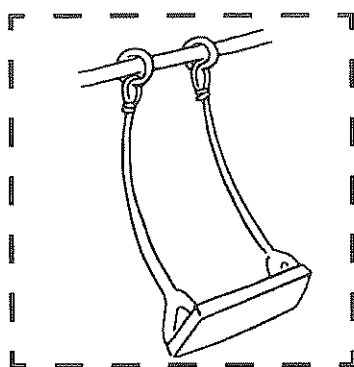

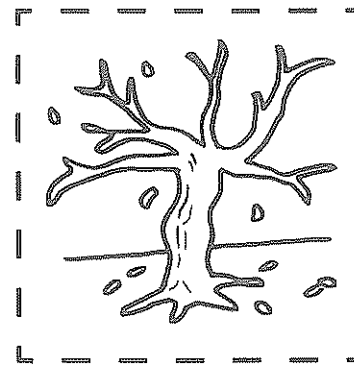

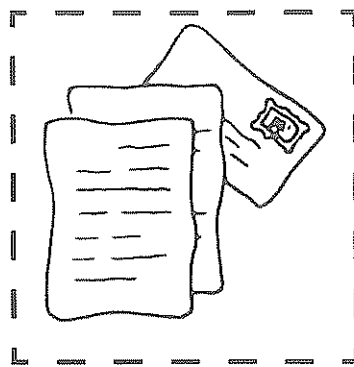

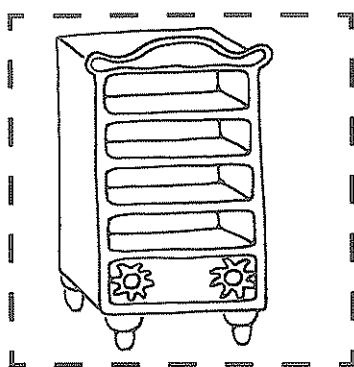

Deel de werkbladen w05-2a en w05-2b uit. Op werkblad w05-2b staan de enkelvoudige en samengestelde woorden door elkaar. Het kind moet zelf met behulp van de enkelvoudige woorden de dubbelwoorden vinden.

Gebruikte woorden

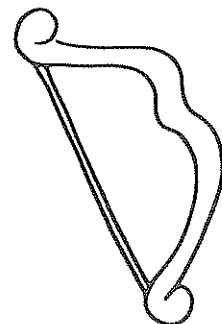

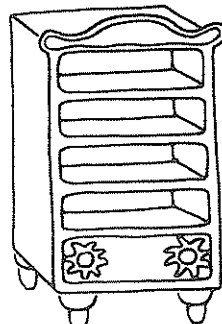

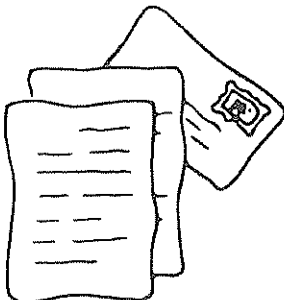

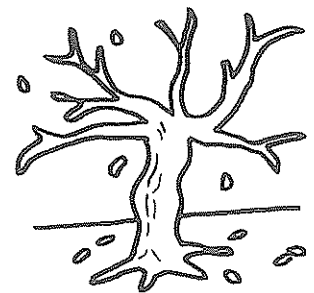

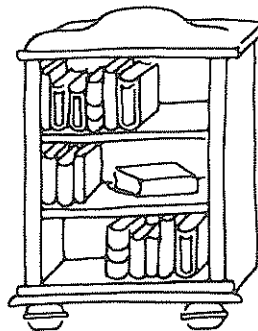

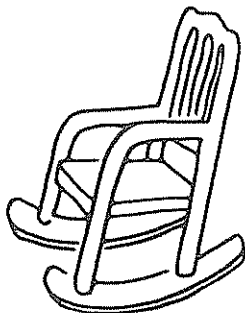

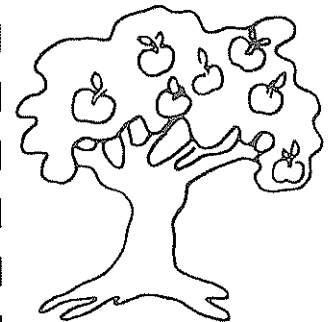

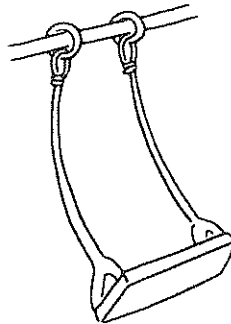

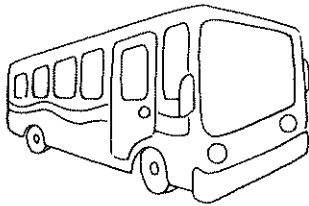

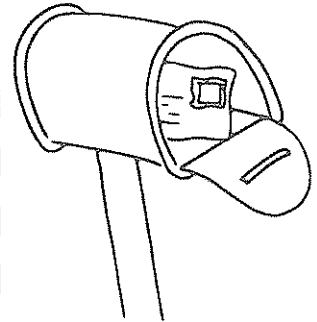

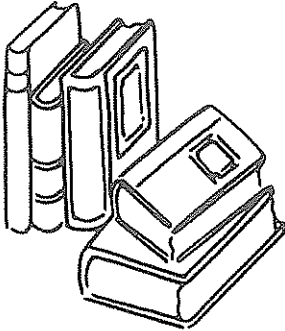

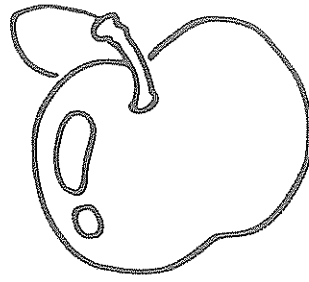

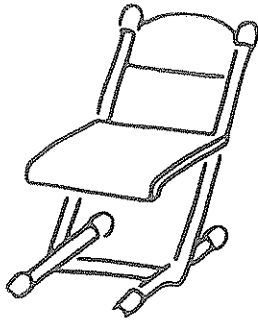

- regen + boog = regenboog
- boeken + kast = boekenkast
- appel + boom = appelboom
- brieven + bus = brievenbus
- schommel + stoel = schommelstoel
